

Salutone Photo Sets

by Susan Korgen

In the Salutone demo, the **6 players each have a set of 4 photos** to contribute during the session.

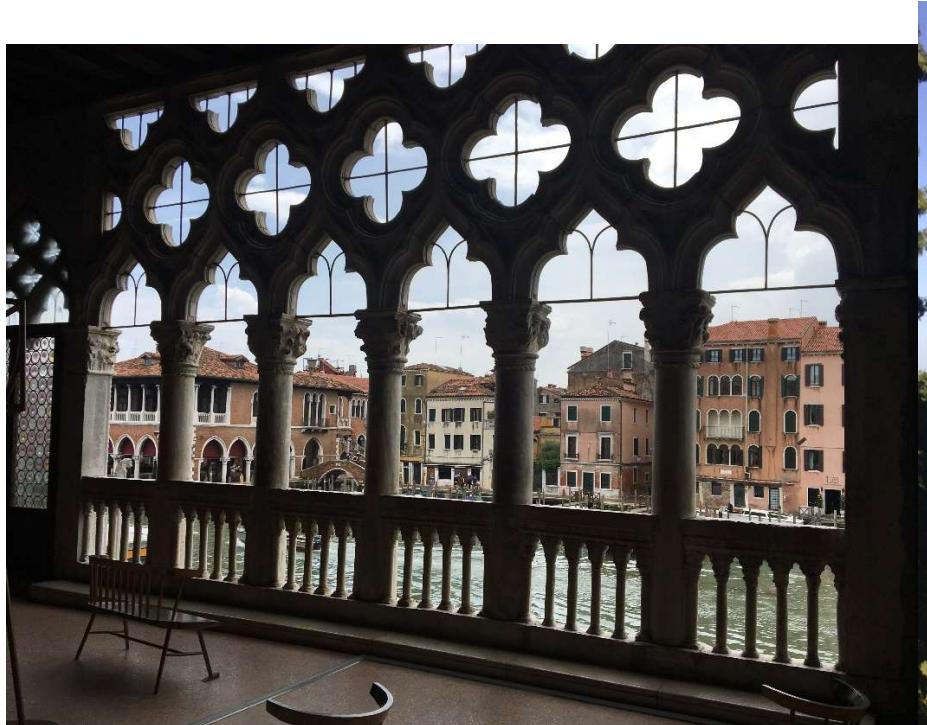

This document displays and labels the **Photo Sets 1-9** for the Clinician Survey. If possible, choose **only the most expressive 6 photo sets** for your survey answers.

The survey page has space for comments on **6 photo sets**. If it feels easier to comment on all 9 sets, simply print the survey page twice, and return both pages.
